Full control in your hands.

Natural hearing at its best.

Hearing your own voice

Many hearing aid users do not like the sound of their own voice as it sounds loud and unnatural. As a world’s first, Signia’s Pure 13 solves this. Its OVP™ (Own Voice Processing) provides you with a natural sounding own voice combined with optimal hearing of all other sounds for the most pleasant, natural listening experience.

Speech in noise

Thanks to its Speech-Quality, Signia’s Pure 13 enables you to hear speech clearly in all situations through advanced voice suppression technologies. This makes it easier for you to understand your conversation partner, even in very noisy environments such as a restaurant or a conference.

Conversation while moving

The 3D Classifier of Pure 13 provides advanced automatic control in all situations to let you enjoy the highest hearing performance. To deliver optimal hearing even when moving, the hearing aid settings are automatically adjusted based on the myControl App’s motion data.

Crystal clear sound

Pure 13’s Sound Clarity offers the most natural, flat-sounding in all environments. This lets you enjoy crystal clear sound, even in the loudest environments.

Maximum energy efficiency

The reliable Pure 13 from Signia provides the longest audio streaming time in its class, so you can keep your head clear for the important things in life.

Fully featured

Packed with sophisticated, state-of-the-art technology, Signia’s Pure 13 offers the most natural sound and the longest streaming time as well as superior connectivity.

For all levels of hearing loss

Whether mild, moderate, severe or profound hearing loss, Pure 13 tackles all these challenges and gives you back the natural sound of life.
